

Comment by Chad C. USA April 2009 on the Dunn Kempf Wargame 'I really enjoyed all four of my previous orders from you. I actually saw the Dunn Kempf game (not set up), but I did see all the plastic game boards with the terrain that resembled Camp Ripley in Minnesota (which looked exactly like areas of West Germany where the US 5th corps was). The game was at the Army ROTC armory in Mankato, MN USA when I was in the Army ROTC program in college (1986-1990). It was the neatest thing I have ever seen (very large). I just loved reading through Dunn Kempf after all these years.'
